Lighting needed in the back of quonset 3 bulbs inside and 1 outside of the back door

We have 2 windows ,New, to sell from the quonset and a New furnace as well

We are looking to have the front and back of the quonset to be sided. Any quotes would have to include demo, materials, installation and clean up

Still have the lagoon to finish up before fall, any helpers?

Discussion about the ball diamond, it is a liability and needs to be removed

Looking for helpers and would need a bin for the debris

Mowing of the ball diamond area needs to be done at least 2x a year,too dry and grass fires are a possibility

Grass around pump house to be removed,wanting to add a protective area around incase of fire and lower maintenance

Asking Darcy again to fix the ditch as it can not be mowed until done

We are wanting to provide gift cards to those who help out with some of the chores that come up
